

VISUAL LATIN & LINGUA LATINA

This chart steps you through using Visual Latin and Lingua Latina together. Although you may already know this, Lingua Latina is *only* written in Latin. We therefore recommend you begin with Visual Latin, then introduce Lingua Latina about midway through the first year. This will make Lingua Latina much easier. In fact, the first chapters will seem very easy, but they become more difficult as they progress.

This schedule takes you on a slower pace, enabling you to finish Lingua Latina and Visual Latin in two years. If you find this is too slow, just pick up the pace. When completed, this will be worth two years of high school language credit. (And you'll know a lot of Latin!)

The last column in the chart matches the concept listed in the Visual Latin column with where it appears in Lingua Latina. For instance, Gender is found in Lesson 3 of Visual Latin and Chapter 1 of Lingua Latina.
